

TECHNICAL DATA

Panel color	aluminum silver
Power input conditions (single-phase 3-wire)	AC90-250V 50-60HZ two-phase (three wires: zero, fire, ground)
Channel number	8-way universal socket relay controlled
Relay controlled output can withstand single channel power / total power (reactive power)	5000W/ 8000W maximum withstand reactive power
Output power socket specifications	flame retardant ABS material, can withstand 13A current brass material, standard universal socket
Functional Features	1: turn on in order and turn off in reverse order. 2: accurate voltage display 3: 2.4-inch color screen display 4: panel channel independent shutdown
Interval time / timing time of each switch	default 1 second
Output relay contact current	30A 277VAC
Specifications of the circuit board	double-sided fiberboard, main power supply line secondary thickening and thickening
Power supply specification	Built-in switching power supply for global voltage AC90-260V 50-60HZ
Main cable specifications	3*4 square cable, total length 1.5 meter with 3C plug
Type of opening	self-reset switch
